## BUSINESS NEWSMAKERS

NEW BEDFORD – ThinkTech Computers Inc. of New Bedford has landed on the MSPmentor 100, a distinguished list of the world's most progressive managed services providers.

"It's an honor we are really excited about." Said Nathan Viveiros, CEO and owner of ThinkTech Computers Inc. "I think it shows our commitment to staying ahead of the curve and providing the best possible computer and network services to our clients."

The MSPmentor 100 recognizes managed service providers, integrators, consulting firms and VARs that leverage managed services to vastly improve customer service.

"Qualifying for the MSPmentor 100 is an amazing accomplishment," said Joe Panettieri, editorial director of MSPmentor, published by Nine Lives Media Inc. "We analyzed the business performance of more than 500 technology consulting firms and managed services providers worldwide. Only the best-of-the-best landed on the MSPmentor 100."

ThinkTech Computers is the only computer and network consulting company in Massachusetts and Rhode Island to appear on the list.
